SOM SATWIK DEO

8511766395 ssomsatwikdeo@gmail.com linkedin.com/in/som-satwik-deo github.com/SomSatwik

SKILLS

Languages Typescript, JavaScript, Kotlin, Java, SQL
Frameworks Express.js, Node.js, React.js, Next.js, React Native
Tools Git, GitHub, Tailwind CSS, MongoDB, Redis, TensorFlow, Supabase, Docker, Socket.io
Soft Skills Communication, Team Management, Problem Solving, Adaptability

EXPERIENCE

Open Source Developer **May, 2026 - July, 2026**
GSSOC-2026
- Selected as a Contributor across both the Open Source Track and AI/Agents Track in GSSoC 2026, one of the largest free open-source programs for students
- Earned 5 badges(AI agents, Open Source, Contributer, Bounty Hunter, Point Scorer) through active engagement with the program

PROJECTS

CyberBattleground – April 2026-Present **Source Link**
Web Development
- Competitive real-time cybersecurity platform (HTB × Valorant style)
- Built 3v3 Red Team vs Blue Team combat system with real CVE-based challenges inside isolated Docker sandboxes (DVWA, Juice Shop, WebGoat)
- Implemented WebSocket-powered live scoreboard, 6-tier ranking system, and a Cyber Credits economy with Stripe monetization (INR + USD)
- Reached 18+ GitHub stars
- **Tech Stack: Next.js, TypeScript, Docker, WebSocket, Stripe**

Bus Tracker (realtime-tracker) - Oct 2025–Present **Source Link**
Software Development
- Engineered efficient API endpoints to manage Students, Courses, and Departments with robust CRUD operations for seamless data handling
- Implemented Role-based Access control Auth, enhancing application security and data privacy among students and admins.
- **Tech Stack: Node.js, Socket.io, MongoDB, Leaflet.js, Kotlin**

Currently Exploring: Artificial life & emergent systems (cellular automata, evolutionary simulations)
Machine Learning Model Evaluation
- a cellular automaton engine inspired by Conway's Game of Life, simulating emergent behavior from simple local rules (birth/death/survival conditions)

EDUCATION

GIET University **2024 - 2028**
Bachelor of Technology in Computer Science Engineering
Courses: Database Management Systems, Operating Systems, Computer Networks, OOPS

ACHIEVEMENTS / CERTIFICATIONS

App Development Lead, Code Communicators Club GIETU **Oct 2025 – Present**
- Organized 3+ workshops attended by 200+ participants, collaborating with teams to enhance skills and Team Management.

5 Stars in Java on Hackerrank

Winner of Learnathon 4.0
- Foodify a project where we collected several dataset and made a ML model to predict where and how the foods are getting expired or wasted and who still consume them.
